CLARKSBURG'S LARGEST STORE FOR MEN AND BOYS

# Have you seen ready-for-service clothes lately?

There are thousands of men who haven't had a ready-for-service suit on their backs for 15 years---and they think they know what they are today. They don't know that such famous makes as Schloss Bros. Co., Ederheimer-Stein Co. and Fashion Park Clothes are designed by men who get salaries that run into five figures.

They don't stop to think that if local tailors had such ability they wouldn't stay in business. They don't know that the most talented tailoring skill in America is to be found at the plants of these noted makers. \* \* \*

Things have been happening thick and fast in the world of clothes---any they don't know it. \* \* \*

Have you tried a ready-for-service suit lately? Such clothes as Schloss Bros. Co., Ederheimer-Stein & Co., or Fashion Park Clothes? If you haven't we're very anxious to see you. \* \* \*

We're suiting men who didn't mind paying much bigger sums to the best of tailors before they found out that they could obtain, all ready to put on, clothes as fine as can be produced. \* \* \*

If you don't care for ready-for-service clothes, you haven't seen the right kind. \* \* \*

Come in and try on our Clothes, see how they look, how they feel on you, then you are certain to see the light. \* \* \*

### The BANKOK is the hat

It rests on the head as gently as down on a placid pool.

Bankoks are made from finely split bamboo by the natives of the Philippines. Of course they were first manufactured for home consumption---and the Philippines are close enough to the equator to be at times a wee bit torrid. The Philippine gentlemen, no matter if the rest of his costume consists of little more than a long, sharp knife, would not think of venturing forth on his promenade without his sheltering Bankok. You will also appreciate one when your collar is wilted and coats are nuisances. We're showing the largest variety of genuine Bankoks in town in all the newer shapes.

## ESCAPED Russian Prisoners-of-War Are Revealing Dutch Territory in Goody Numbers Now.

**THE HAGUE, Netherlands, June 9.** There has been a striking increase in the number of escaped Russian prisoners-of-war to reach Dutch territory in the last few weeks. Arrivals being reported almost daily. The fugitives seldom come alone, usually appearing in parties varying from two or three to a dozen. The increase is apparently due to the greater facilities offered for escape by the German policy of utilizing the labor of many thousands of such men in Belgium and elsewhere. The number of escapes into Holland in the last few months may be put at several hundreds, many of the men having been from remote parts of the Russian empire.

## GOOD GRAIN CROPS

In Germany This Year Are Indicated by the Conditions at Present.

**BERLIN, June 9.** Everything indicates that Germany will have unusually good grain crops this year. From all parts of the country the reports are most satisfactory. This winter was mild, and thus far the spring weather has been well-nigh ideal. The rainfall has continued satisfactory in nearly all parts of the country; hence grain and meadow-grass

have been making fine progress. Livestock has been turned out to grass, and thus the scarcity of feed stuff has been relieved. The greatest danger just now for the grain crops is that there may be a relapse of cold weather, which may injure the well-advanced plants. Another factor that is expected to increase Germany's production of grain and other crops is that much moorland has been reclaimed and will now come into cultivation for the first time. The prospects for an excellent fruit crop are also good.

Europe and Africa are the only continents which have more women than men, and the reverse was the case in Africa until within recent years.
